athletes; Debbie Hutchings, women's vice president; John Plocher, organizations vice president; Mike Hutchings, of the culture office; and a freshman vice president to be elected this month.

candidate doesn't know about the workings of student government," he says.

Past election antics six years ago a "gorilla" was elected studentbody president. Ken Karchine, dressed in a gorilla costume, proposed radical changes in the existing government structure and though they were never realized, most felt he did a satisfactory job.

Some students may not be familiar with the various functions of ASBYU. This year academics office will sponsor a textbook exchange. A teacher evaluation program will also be new. Says Mark Harmon, academic vice president. As noted by Pres. Oaks in last week's assembly, the Office of Student Community Services elected through a written campaign. At that time the Church and BYU were under criticism for alleged unfairness to blacks. Many schools boycotted or terminated their athletic ties with BYU. Walton, classified as a liberal president, scheduled press conferences at WAC schools to attempt to explain the situation. The administration was always concerned about what he was going to say, Whitaker explains. But in the end, the concern proved unwarranted and Whitaker felt he had done a "pretty good job."

Its efforts include foster parties. A roller skating party a.d.a. chip-dip extravaganza, were two offered in September. Video tape concerts, free movies, dances and concerts are also handled by the Social Office.

Henrie says the council has an "outstanding" working relationship. "If changes are going to take place, they will be made," he concluded.

It appears there are only three possibilities open to the studentbody officer: to do absolutely nothing, to merely maintain past programs, or to creatively initiate new programs while enhancing the office.

This year's student administration claims they are determined to achieve the third alternative.

According to ASBYU President Henrie, the main difference between this year's administration and those of the past is that the Executive Council will be handling problems directly related to the students and leaving most damage to the office.

Henrie says the council has learned that the past is the past. Next year it is the new experience in choosing their leaders.

This year, ASBYU Executive Vice President Clark Richter maintains that student government is much more trying to make things better for the students. If for no other reason, the ASBYU program deserves the close attention of the students. For example, a student housing booklet is being prepared.

ASBYU purpose is to be open. A Better Business Bureau is being proposed, and the student government will be able to make drastic changes. Each of the College Council and the new Organizations Review Board.

I used to get so fed up with the rash sitting in the Executive Council last year," Henrie relates. "No one did jack, or the volleyball team could have \$34 to purchase new balls."

Students have say

good as we have been in the past, maybe better. We would have to stay away from serious types of injuries. As we would have to have some of the most memorable experiences you have had as a coach?

Coach Edwards: Of course with his recent injury would be paramount in my mind. Not so much from the loss of the team but from the loss of the team. In 23 or 24 years personally by not being a part of the team. In the last three or four years working on my doctorate. I will complete my dissertation. After that I will probably have to go along with the experts in saying that the University of Arizona would be one of the top schools. I think the two three schools are the two Arizona schools and BYU from New Mexico and Colorado State.

Coach Edwards: I enjoy playing golf. I have been doing so for the last three or four years working on my doctorate. I will complete my dissertation. After that I will probably be playing more golf, tennis and participating in activities like that with my family. I like gardening and enjoy working in the yard. I would like to build a greenhouse where I could grow vegetables and things like that.

Monday Magazine: In what ways can the principles of the gospel be applied to the game of football?

Coach Edwards: I think one of the best ways is that of unselfishness, because if you are a part of a team you have much to, that has worked so to subject yourself to the hard to reach the potential he has as Jay Miller. It really is a belief there are four principles fundamental to the first game of football. The first principle of success is hard work. The second would be self-discipline. You must discipline your time and whatever it takes. The third one is sacrifice. You have to sacrifice your time and interest for making yourself a better football player. The fourth is to subject yourself to an all out effort for the team. These same principles are fundamental to the gospel of football.

Monday Magazine: In what way did they come to BYU?

Coach Edwards: In the past I would have to say there have been three schools that have been comparable with most in the country. At BYU we are approaching that level. As a conference we are not as strong as say the PAC 8 or the Big Ten, but we wouldn't be far behind. We are closing the gap more each year.

Monday Magazine: How would you compare football in the WAC with football in other conferences?

Coach Edwards: I would probably have to go along with the experts in saying that the University of Arizona would be one of the top schools. I think the two three schools are the two Arizona schools and BYU from New Mexico and Colorado State.

Monday Magazine: Could you relate some of the most memorable experiences you have had as a coach?

Coach Edwards: I would probably have to go along with the experts in saying that the University of Arizona would be one of the top schools. I think the two three schools are the two Arizona schools and BYU from New Mexico and Colorado State.

Football Coach Layell Edwards relaxes in his office as he discusses his basic philosophy of coaching. There are, says Edwards, parallels between football, the gospel and life.

The Edwards philosophy:

Gospel and football are both team efforts. . .

Editor's note: Football Coach hope to have that same kind of relationship with each one

According to Layell Edwards, is indeed

finding the right group at the

right time at the right price.

All things considered,

successful concerts are not

confined to BYU alone.

The elusive answers to

these questions may hold the

key to the success and even

the continuation of the

concert program at BYU.

Do they want the concerts

at all? Is there enough

interest to justify continuing

the concert program?

Are the interests of the

majority being heard by the

Social Office or do they only

hear the vocal minority?

What do the students really

want? What are they willing

to pay for it?

The elusive answers to

these questions would

have considerable impact on

the effectiveness of the Social

Office.

Especially when our ticket

prices are well below

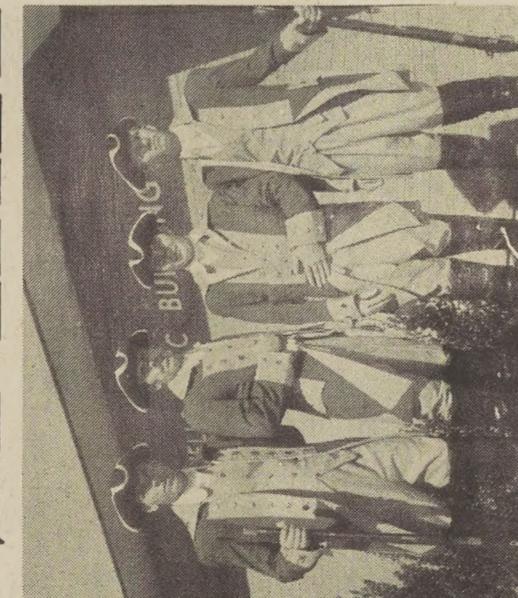

the life of groups anymore.

ARMY ROTC IS THE SPIRIT OF '76

1976

1976

FOR 200 YEARS —

— BENEFITS FOLLOWING COMMISSIONINGS AS AN ARMY OFFICER: Each year, an Army Officer has a thirty day paid vacation (or leave) while on active duty. And besides regular pay and allowances (now more than \$10,000 per year for new Second Lieutenant), there are other benefits such as medical and hospitalization for yourself and your family.

The Army ROTC has consistently added benefit upon benefit to the young men and women with an eye for the future. The future isn't all, either, when you consider the immediate benefits.

ARMY ROTC SCHOLARSHIPS: Four Three, Two and One Year Army ROTC Scholarships are available for qualifying students. The scholarship pays all tuition, books, fees, plus \$100 per month tax free subsistence allowance.

ALL JUNIORS AND SENIORS: Those in the third and fourth years of the Army ROTC program receive the tax

free \$100 per month subsistence allowance even if not on scholarship.

ARMY ROTC SCHOLARSHIPS: Four Three, Two and One Year Army ROTC Scholarships are available for qualifying students. The scholarship pays all tuition, books, fees, plus \$100 per month tax free subsistence allowance.

ARMY ROTC HAS A LOT GOING FOR IT. THE MORE YOU LOOK AT IT, THE BETTER IT LOOKS!!!

Singer Mac Davis jokes with crowd between numbers in last week's Davis-Yarrow concert.

Concerts

(continued from p. 10) "We've taken concert polls for us, our open dates have to coincide with a group's tour, and they all say the same thing. Another concert poll is often difficult and sometimes impossible."

Why no Elton? Carefully screened by both administration and students, Social Office does have a handle on what students would like to see, then why screening and Morgan or have personalities such as Elton John, John Denver and student representatives Chicago not been booked here?"

Despite the system, the basically what he said to me concerns at BYU seem to was that last time Elton leave a significant number of played in Utah he only drew 10,000 people and they were mostly recent evidence being a little concerned about how the appearance lack of enthusiasm for the Mac Davis. Because of that they booked him in the most central location available—a location and the administration really know that the students easily accessible to the largest possible audience. The agent question Morgan brought up told me that if they had the subject of the concert known that he would sell out so fast that they would have

anyone on campus. He has been filling his present tour, and I asked him why he hadn't contacted us about the past ten years.

are the solutions Simon warns, "What kind of future, what judgment of God, do we invite if we fail to move in this direction?" For earned, merely to help asphalt road most people, such a plea others? Perhaps T.S. Eliot would be feeble and unable accurately predicted.

Lord, when saw we thee ahungered?

Arthur Simon, *Bread for the World*, Paulist Press, New York, 1975 Paperback-\$1.50

Reviewed by Steve Guynn
"Sir, I'm hungry!" pleaded a five-year-old boy in Addis Ababa, Ethiopia. "He had approached

Simon, anchor fish-meal Bernard Confer and Leslie Weber, both Lutheran world, manufacturers executives engaged in world relief. They turned, and as hungry Puertoians, but for Weber tells, "I had no doubt about his being hungry. He wore a single cloth garment and his eyes bulged. I reached into my pocket and gave him a coin. Soon there were other children and my Ethiopian population.

Confer commented, "You have helped these children today, but who will help them tomorrow?" In 1975, Arthur Simon, executive director of Bread for the World, published the book into three major arguments: millions are presently starving, the U.S. for the World, leaders, and in its work on an organizing citizens study international basis to successfully combat the groups. "We usually get the kind of leadership we ask for... and if we ask for none, that is what we can expect." Hence, if we don't ask policy toward the problem, government, it simply will not.

Despite Simon's idealism, the book is not without flaw. The author's appeal to birth present with more than 70 control as a world panacea is million additional mouths to feed each year.

The real problem, government, it simply will not. Yet, as Simon points out, that one man has "that which waste and unequals is above an other." Distribution and organization are widespread.

Simon cites more injustice: Simon cites more injustice: Simon cites more injustice:

Centennial Carillon making

final installations and

adjustments for playing

The tiny-looking bells seen

from the ground have quite a

different appearance when

is warming with busy bell

viewed up close. Some of the

tuners. They climb in and out

among the brass bells of the

washing machine, weighing

up to 1730 pounds each.

"The Carillon is one of the

first Centennial projects

produced," says Dr. Lorn F.

Wiewright, assistant to

President Dallin Oaks and

director of the Centennial Committee. "The plans for the tower were considered many months in advance. It is the major symbol of our Centennial Year."

Bell tuners of the I.T.

Verdin Company from

Cincinnati, Ohio make many

trips each day up the 90-step

spiral staircase to their

precarious perch among the

bell.

"Make sure you bring a wide angle lens," says Richard M. Watson, director of the company. "You can't stand back to get a good picture. That first step is a long way down," he says while adjusting one of the pinions which connect the bells with the playing console.

Console

Just below the bells in a small room is a wooden apparatus which looks somewhat like the console of a pipe organ. There are pedals which are played with the feet like the organ and above them are wooden dowls about the diameter of the end of a broom stick which are connected to the bells, all together. "They are like a piano," he says. "You can play louder by pushing them harder,"

The dowels are arranged here, says Watson, to point to a large relay and electronic, and used for practice. "If a person wants to try out a new piece, he can test it on the practice board. The console located under the bells is one of two consoles used to play carillon things, and don't fall off," he says smiling from behind another huge bell, located in the bottom of the tower. "There is an electric player in the tower, the basic tone is a C below middle C which is the lowest note written in carillon music," Watson says.

"We have few visitors, and we don't want to lose them," says Watson. The player has two keyboards which look like an organ with conventional keys playing tracer organ, says Watson.

The open air tower is filled with bells of different sizes on metal lattice crisscrosses to support their heavy weight. A workman up at the top looks like a monkey climbing trees as he glides from beam to beam.

"There are strikers in each of the bells which are played by the console below," says Watson as he shows how a pinion transfers to another when it connects below.

"The clappers on the outside of some of the bells are electric relays which connect

to the console in the bottom console identical to the one in the tower, which is with his knuckle. "A partial is essentially a tone or overtone within the whole tone," He rings a bell with a clapper inside the tower. "Most people only hear the basic tone or hum, tone."

The bells in the tower have no dampers and are very responsive to the hands of the carillonneur. "The relays are

which are worked on a lattice which are worked on a lattice to remove metal from the inside until a certain pitch is attained. "They are tuned with an electric strobe, or excitation method," says Watson. Previous bell tuners introduced in the past year

have great skill in tuning carillon music. A carillonneur can play programmed music, says Watson. One showing how the relays have been used running ticks for clock towers, and other such mechanical devices.

Unlike a piano or organ, which are tuned to one pitch, which are tuned to one pitch, either in the same octave, or three octaves of his company since 1842.

"The pinions used to prevent the water from descending below

the player to get the right amount of attack on each bell," says Watson. "A piano can be set to play at any hour. The music can be played on the electric console below, and then taped on the resonating," he adds, pulling the clapper against the bell which gives a dull sound.

"Bells must be tuned to

Probing Groans of BYU Concert Policy

John? Could we ever have asked of ASBYU Social Vice President Dan Morgan and Wilkinson Center and advisor to student government doesn't the Social Office ever get John Denver? Why are we going to have someone good at BYU? These are commonly asked questions all centering on one issue: the BYU concert policy. Every music-lover concert-goer has probably asked himself this question: "Is it good to have someone good at BYU?"

Morgan shows signs of the strain trying to come up with an answer that would please several times and in all probability has not received an answer that would satisfy his curiosity. These questions are probably asked himself because he has probably asked himself this question: "Is it good to have someone good at BYU?"

Concerts at BYU are a continual source of life, for his signature. After another "once over" by the university attorney the contract is signed and the social vice president returned. The agreement then

is the Social Office. Morgan began his comments on the Social Office concert policy by pointing out how different BYU is from the average American university. Its policies are different, its requirements are different, and its concepts are different. Booking procedures According to Morgan the procedure for booking a concert is as follows: Ideas are generated through Social Office research and student suggestions. The ideas are then brought to the attention of Social Office staff workers and the pros and cons discussed. If the decision is positive the suggestion is then

The big bells with their clappers overlook the BYU campus and its environs. They should be ready for trial playing sometime this week, but will officially play the first time Oct. 10.

Carillon

(Cont. from p. 7)

it is easy to imagine the amount of work necessary to accomplish this task.

"The bells were cast in Holland, but the rest of the work, the d.o.e. in Cincinnati," says Watson. They must be made of bronze, an alloy of copper and tin. In the smaller bells more tin is used. Any other combination of metals would not give the clarity so characteristic of bells.

The bells are arranged in the tower for easy access to pinions and levers and to mount the larger bells for show on the outside. Largest bells which are mounted on heavy steel beams contain more metal in each of them than an octave of smaller bells.

"It is customary to leave out the C-sharp and D-sharp of the largest bells," says Watson as he, his C and D bells showing the missing note between them. The expense of leaving out the large bells can pay for an octave.

"Because these bells are left out, music is not written for those keys." The carillon music is written in two staffs, the top one for the hands, and the bottom for the feet.

Watson hits another large bell which emits a sound a low mellow tone. "Very often the melody will be assigned to the pedal, a low melody sounds good with

small bells to accompany them."

Official carillonneur John Longhurst, official carillonneur of BYU.

Longhurst. He mentions the technique is very different than that of a piano or organ. An organist has an advantage because of the coordination between his hands and his feet," says Longhurst. No classes have yet been scheduled by the music department in carillon. "We hope to play it around sunset and perhaps before and after devotionals," says Longhurst.

Officially, the bells will play the first time in concert at the dedication for the Carillon on Founders Day, Oct. 10. President Spencer W. Kimball, of the Church of Jesus Christ of Latter-day Saints, will dedicate the Carillon.

The Carillon should be in service for trial playing this week, says Dr. Wheelwright.

"May these bells proclaim forever our gratitude to those who founded and those who sustain Brigham Young University."
